

Welcome to the Johto Region!

The Johto Region, lying west of Kanto, is a land steeped in tradition, legends, and harmony between humans and Pokémon. Known for its ancient towers, shrines, and myths of legendary creatures, Johto embodies a balance between the old and the new. Cities like Ecruteak preserve stories of fire, rain, and rebirth, while Goldenrod thrives as a bustling hub of commerce and technology. Johto's landscape flows from serene forests and mystical caves to snowy mountains and peaceful seaside towns, each holding a deep cultural connection to its people and Pokémon.

Falkner

Bugsy

Whitney

Morty

Chuck

Jasmine

Pryce

Clair

Gym 1 - Falkner

Falkner

In Violet City, he stands as a disciplined young leader, carrying on his family's legacy while watching over the rooftops from the Gym's high tower.

Type: Flying
